

## **SAVINGS OF €110m**

Major savings have been achieved over the past decade through logistics synergies. In 1999 this amounted to €25 million, by 2009 savings had doubled to more than €56 million and the target for 2010 is €110 million.

This ambitious – but achievable target – has been made possible by the decision last year to accelerate the convergence of Renault and Nissan's logistics platforms including information systems and processes.

The formation of Alliance Logistics Europe (ALE), created in November 2009 and bringing together the Renault and Nissan logistics teams under a single director, is one good example of this acceleration – ALE is already delivering €50 million annual savings for the Alliance partners.
